Percentage: 93.4%

PROJECTS

Certificate Verification System Automation

- **Description:** Automated the process of certificate generation and verification using Python and Next.js.
- **Technologies Used:** Python, Next.js, MongoDB, Vercel, Git
- **Outcome:** Streamlined the certificate issuance and verification process, ensuring authenticity and accuracy.

Shop Management System

- **Description:** Developed a comprehensive management system for a shop, handling inventory and sales data.
- **Technologies Used:** Python, MySQL.
- **Outcome:** Improved efficiency in managing shop operations and data handling.

Open Source Contributions

Contributed to GitHub projects like ProjectHut and BioDrop, crafting clear, engaging documentation and spearheading translation efforts to make these projects accessible worldwide.

SKILLS

Python · C · Java · Javascript
Next.js · MongoDB · Vercel · HTML
Git · Linux · MySql · Tailwind CSS
Flutter · Communication Skills · Programming
Ability to work in a team · Ability to Work Under Pressure
Adaptability
